

## The Comprehensive NetSuite Services Program

Focused on Delivering 6 Key Client Outcomes

Revenue Growth

Margin Improvement

Elevate Products and Services

Improve Customer Satisfaction

Improve Employee Engagement

Regulatory & Compliance

TPC Complete™ for NetSuite Produces Successful NetSuite Outcomes For:

- New Full Stack Implementations
- Enhancements & Optimizations
- Cross-platform Integrations
- Recovery and Repair Situations
- Managed Services and Support
- Performance and Resilience

TPC Complete is a Unique 3 Pillar Approach for NetSuite Services:

### TPC Complete™ For NetSuite

We make sure all the key elements of your NetSuite requirements, inputs, and outcomes are understood and documented.

Then we implement your NetSuite design, project plan, data model, processes, deployment, testing, and adoption. NetSuite is live.

With NetSuite running in your company, you optimize performance with managed services, training, security and governance capabilities.

Here's How to Achieve Your NetSuite Goals and Objectives >>

## Proven Process + Proven People = Project Success

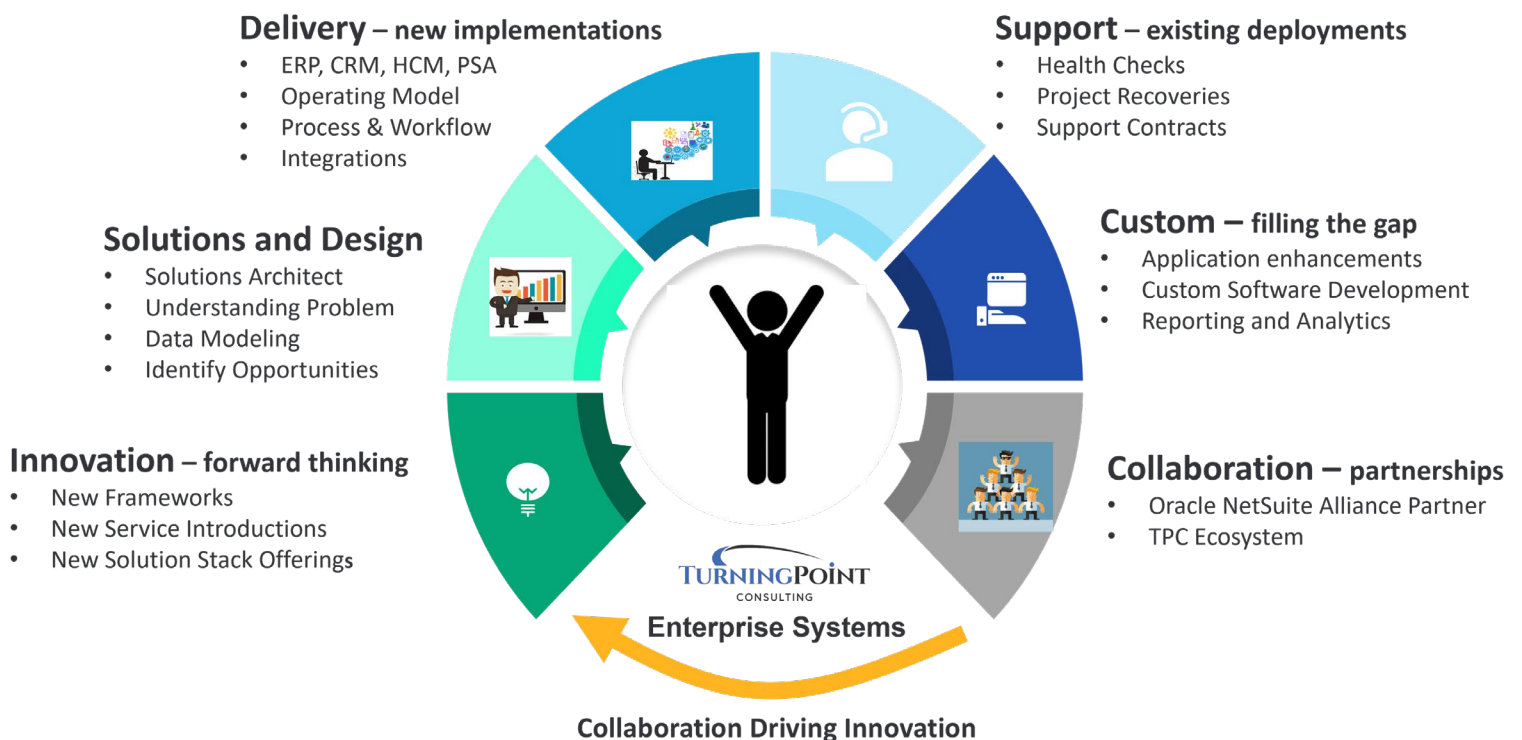

### Get It Right the First Time and Mitigate Risks

Your foremost goal is to realize your company’s business strategy and objectives with your NetSuite implementation. The TPC Complete for NetSuite program has proven time and again to deliver our clients' desired outcomes.
